

Technical Datasheet

D-69 Odourless thinner

JUNO

Product Code: 50073 Disolventes

DESCRIPTION

Thinner for use with JUNO's stain-blockers. Formulated with isoparaffinic hydrocarbons

USE

Dilution of odourless stain-blocker.

Cleaning of tools used in this application.

Use only with products recommended in their technical datasheet.

PROPERTIES

- Appropriate evaporation rate allowing a uniform finish
- Perfect balance between internal and surface drying
- Adjusts viscosity in specified paints
- Low odour

Color: Incoloro

Densidad: $0,76 \pm 0,05$ g/cc S/FR1001/D

Punto de inflamación: No inflamable (>60 °C)

50073 INCOLORO

Formato: 1 / 5 / 20 L

SURFACE PREPARATION

Proceed as indicated for the paint with which this product is recommended.

APPLICATION TIPS

AS THINNER. Add the recommended amount according to the technical datasheet of the product to be thinned. Stir the mixture slowly until fully homogeneous.

FOR CLEANING. Clean tools immediately after use to prevent the paint from drying. Remove all paint residues thoroughly and then wash the equipment with soapy water. Allow the tools to dry completely.

SAFETY & ENVIRONMENT

The product must be handled in well-ventilated areas and using the necessary protective measures. Avoid sources of ignition. Do not inhale the vapours. Avoid contact with skin and eyes by wearing gloves and protective goggles. In case of splashes, rinse thoroughly with plenty of water. For further information, consult the Safety Data Sheet.

Store any leftover material in a dry, well-ventilated place. Close containers carefully and keep them upright to prevent spills. Protect containers from frost, high temperatures, and direct sunlight.

Do not eat, drink, or smoke during preparation and application of the product. Keep out of reach of children.

Do not discharge into drains or the environment. Dispose of the product at an authorised waste collection point.

Consult your local authority regarding proper recycling of the packaging, as well as any waste and leftover product, in accordance with legal requirements and environmental best practices.

The information contained in this technical datasheet may be subject to change and should be kept up to date. Please consult [\[www.juno.es\]](http://www.juno.es) or your nearest JUNO representative to obtain the latest technical datasheet. Technical application advice, whether verbal, written, or based on testing, is provided based on JUNO's experience and technical knowledge.
